

## **PERMIT SUBMISSION REQUIREMENTS**

In addition to a completed plumbing application, all permit submissions are required to include the following information:

- The proposed location of the sprinkler heads on all copies of the plat of survey, along with the location of the backflow preventer (RPZ).
- Sprinkler Heads are permitted in the public right-of-way provided you return a "License Agreement" with your permit application. This agreement may be obtained at the Building Department.
- A separate meter application is required, when installing an additional water meter.
- A plumbers license, a plumbing contractor registration, irrigation contractor registration and a letter of intent is required.

## **OTHER REGULATIONS**

If there is no irrigation system and a separate meter is installed for just watering, an **RPZ is not required**, however the spigot that is used for that meter must be code compliant with a back-flow built into it.

## ***Why apply for a Permit?***

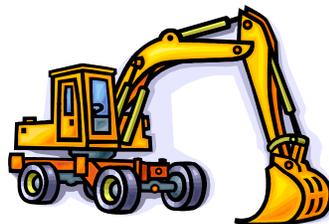

When you apply for a permit, you are assisting the City in conducting a plan review and the subsequent inspections that will ensure that all construction in the community meet specific safety and quality guidelines.

The City is on your side. We want to ensure that you will enjoy your irrigation system for many years to come. The permit you receive for this project will allow us to do just that.

The City of Wood Dale is dedicated to assisting its residents. The Community Development & Building Department will show you this dedication as you apply for and receive your irrigation permit.

## **The Permit Process**

1. Obtain a permit application from the Building Department which is located at 404 N. Wood Dale Rd.
2. Return the complete application with two (2) copies of your plat of survey to the Building Department. Please refer to submission requirements for additional necessary information.
3. After you receive your permit, and at least 48 hours before you begin digging, call JULIE at 1-800-892-0123 for utility locations.

## **Inspections**

### **Final**

**Upon completion of the irrigation system, to ensure that construction had been completed, the RPZ has been installed and tested. Meter inspection required after installed. All landscaping has been restored.**

## **Requesting Inspections**

To schedule an inspection, contact the Building Department at (630) 766-5133, Monday thru Friday between the hours of 8:30 a.m. and 4:30 p.m. Requests for inspections must be made 24 hours in advance. Please have your permit number ready when you call.
